

Web Developer Frontend (m/f/d)

User-friendly and appealing interfaces for complex technical systems – if you are up to the challenge, join us in our efforts to make the web a better place.

Your tasks ...

- » Development of websites and web applications
- » Involvement in a wide range of projects based on different tech stacks
- » Conception and implementation of digital products
- » Creating clean, maintainable and reusable code
- » Developing accessible and user-centred solutions
- » Continually improving your skills and spreading your knowledge within the team

Your qualifications ...

We expect skills in the following areas:

- » Contemporary and standards-compliant web techniques
- » Modern JavaScript development
- » Good knowledge of HTML and CSS
- » Experience with templating languages and CMS systems
- » Knowledge of common design patterns to build user-friendly interfaces

Additional optional skills and qualifications:

- » Experience with Vue.js, React or other JavaScript frameworks
- » Experience with WordPress, Craft CMS and templating languages like Jinja
- » Experience with build tools, continuous integration / continuous delivery, automated testing
- » Accessibility
- » UX, usability, interaction design, information architecture
- » Web design

We expect ...

- » Work experience, relevant education or references in the field of web development
- » Personal commitment, positive work attitude and willingness to learn
- » Willingness to work both as part of a team and independently
- » High quality awareness
- » Willingness to work across disciplines
- » Very good knowledge of German and/or English
- » EU citizenship or a valid work permit for Austria

Web Developer Frontend (m/f/d)

We offer ...

- » Permanent part-time or full-time position (min. 30 h per week)
- » Flexible working hours and fair working conditions
- » Qualification and certification opportunities
- » Being part of a committed and supportive team
- » Regular team activities
- » Flexible home office solution available after onboarding period
- » Office in a central location in the city of Vienna

The minimum gross salary corresponds to the IT collective agreement: € 3.724 per month (ST1 regular level 2024) or € 3.077 per month (ST1 entry level 2024), but may be higher depending on professional qualifications and experience.

About us ...
